**EXAMINER'S AMENDMENT**

***Election/Restrictions***

1. This application is in condition for allowance except for the presence of claims 10 and 11 directed to an invention non-elected without traverse.

Accordingly, claims 10 and 11 have been cancelled.

***Amendment***

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

**In Claims**

Claims 10 and 11 have been cancelled.

***Reasons for Allowance***

3. The following is an examiner's statement of reasons for allowance: the prior art of record does not anticipate or render obvious a method for fabricating a dual-bit non-volatile memory cell substantially as claimed. The closest prior art of record, Wang et al. (Wang), US 2003/0122185 A1, discloses a method for fabricating a memory array of floating gate memory cells. The method comprises an etching process, which includes the steps of: forming a dummy gate 28 on a substrate; forming a stack of layers comprising a nitride layer 30 and an oxide layer 32 overlying the dummy gate and the substrate;

etching a portion of the stacked layers; and removing the dummy pattern (see figs. 3A-3E and accompanying text). Etching processes that use sacrificial patterns such as dummy gates are known, as evidenced by Wang. However, the prior art of record does not anticipate, teach or suggest a method for fabricating a dual-bit non-volatile memory cell, including a control gate formed on a recess, substantially as claimed, wherein a dummy gate is used in an etching process to form the control gate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
